Ghost story

It was a ceepy frightfull and terrifying night I thought I was going to die. The door smashed in my face. And it made an awfull noise like a ghoul strangling itself! I was very very scared? suddenly a man came out of nowhere and he shouted my name he shouted "Daniel. Stop. At this point, my blood slowly turned to ice and i was frozen on the spot I couldnt move. What do you want i said. His eyes glared at me like he was searching for my soul and he couldnt find anything. I want to eat you, he whispered, sending goosebumps along my spine.
